SUMMARY:

I am a highly motivated junior developer transitioning from a career in janitorial and automotive. I have many exposures in coding. Many of my courses involve working with real life experience coding. Currently, I'm looking to leverage everything that I have learned in getting hands-on experiences.

EDUCATION:

05/2022-10/2022   **Epicodus**   **Web Developer**   **Portland,OR**

Completed 27 weeks of structured full stack web developer courses
- Built and completed 60+ projects in independent or pair-programming projects with C#, JavaScript, HTML, CSS, JQuery and React
- Developed good communication skills and accommodate various learning style either by groups or pair programming

09/2008-01/2010   **Universal Technical Institute**   **Automotive**   **Sacramento, CA**

SKILLS:

HTML/CSS	JavaScript	C#/.NET	React.js
TDD	GIT	NODE.JS	JQuery
MySQL	MVC Design	Q&A Testing	Pair-Programming

Project:

Factory.Solution - C#, .NET, MYSQL
- This application keeps track of Dr. Sillystringz machine repairs and license engineers. This application helps input new engineers and machines. It also helps signing machines to license engineers or license engineers to their machines that they can fix.

Programming Language Suggester - JavaScript
- Programming Suggester webpage is for individuals who want to start learning programming language, but does not know where to start. This application will ask users a series of questions about themselves and it will provide a language suggestion to learn based on their answers.

EMPLOYMENT:

10/2022-11/2022   **Nombolo**   **Intern Web Developer**   **Portland,OR**
- Debug errors
- Touch app to figure bugs
- Report bugs and task as needed
- Attend meetings with Dev/ UX/ UI team
- Use React Native CLI, Xcode

09/2018-05/2022   **TriMet**   **Service Worker**   **Portland, OR**
- Collaborate with team members to empty trash, sweep, and mop train in timely manner
- Clean biohazard areas in safely manners
- Perform safety pretrip on trains before pullout
- Clean and organize shop
- Move train into working bays and move trains as directed by supervisor

10/2013-08/2018   **Auto Warehouse Company**   **Accessory Installer**   **Portland ,OR**
- Install accessories to new vehicle as listed in work order(i.e., illumination kit, side mirror, rear view mirror, bumper cover, floor mat bracket, stickers, wheel caps, 110W kit, trunk trim piece, seat back protector, etc)
- Communicate with co-workers and follow safety protocols and procedure on how to install accessories
- After installing the accessories, the team has to inspect all vehicles and perform vehicle inspection (PDI)
- Maintain a clean and safe work environment
